## I. Supervision

**SUPERVISION:** The exercise of these privileges requires a designated collaborating/supervising physician with clinical privileges at SHC. The supervising/collaborating physician must provide supervision as designated in the privileges per the following definitions;

**General Supervision** = physician is available either by phone or other electronic means of communication

**Direct Supervision** = physician is on premises

**Personal Supervision** = physician in the exam room or procedure area

(A physician cannot supervise more than four NP's at one time)

Physician supervision is also provided by:

Chart audits on random charts as an integral part of departmental and practice performance improvement programs

## II. Consultation

Nurse Practitioners will work under the supervision of the Supervising Physician in the service. In addition to general consultation, immediate physician consultation will be obtained under the following circumstances from Attending Supervising Physician or his/her designee:

- a. With emergent conditions requiring prompt medical attention;
- b. With acute decompensation of the patient situation;
- c. When there is a problem that is not resolving as anticipated with unexplained, historical, physical and/or laboratory findings;
- d. Upon request of the patient, Allied Health Professional, or physician.

Follow-up and referral:

Performed in accordance with the standard of practice and/or with the consulting physician's recommendation.

**I attest that I have met all of the required criteria and will meet all competency requirements for each procedure that I have requested and I will follow the protocol for the advance procedures requested.**
