<input type="checkbox"/>	<p>Anorectal Manometry and Rectal Sensation The purpose of this procedure is to allow the NP or PA to safely assess the resistance to spontaneous defecation provided by the anorectal sphincter mechanism and to assess the ability of the patient to sense rectal filling.</p>	<p>Perform at least 6 procedures under the direct supervision of the faculty, and such additional procedures as are necessary to verify clinical competency</p> <p>SUPERVISION: Personal</p>	<p>____# of patient contacts in 2 years</p> <p>Minimum of 6 patient contacts required in the past two years</p> <p>SUPERVISION: General</p>

I. Supervision

SUPERVISION: The exercise of these privileges requires a designated collaborating/supervising physician with clinical privileges at SHC. The supervising/collaborating physician must provide supervision as designated in the privileges per the following definitions;

General Supervision = physician is available either by phone or other electronic means of communication

Direct Supervision = physician is on premises

Personal Supervision = physician in the exam room or procedure area

(A physician cannot supervise more than four NP’s at one time)

Physician supervision is also provided by:

Chart audits on random charts as an integral part of departmental and practice performance improvement programs

II. Consultation

Nurse Practitioners will work under the supervision of the Supervising Physician in the service. In addition to general consultation, immediate physician consultation will be obtained under the following circumstances from Attending Supervising Physician or his/her designee:

- a. With emergent conditions requiring prompt medical attention;
- b. With acute decompensation of the patient situation;
- c. When there is a problem that is not resolving as anticipated with unexplained, historical, physical and/or laboratory findings;
- d. Upon request of the patient, Allied Health Professional, or physician.

Follow-up and referral:

Performed in accordance with the standard of practice and/or with the consulting physician’s recommendation.

I attest that I have met all of the required criteria and will meet all competency requirements for each procedure that I have requested and I will follow the protocol for the advance procedures requested.
